

## Computer Frameworks – Online Claiming Interface

with an Interface Solution to Connect your Clinical Systems to Medicare Australia

### What is the Online Claimer?

*The Online Claimer* is a simple, user-friendly application that provides medical practices with the ability to send claims electronically to Medicare. *The Online Claimer* Interface is a custom-designed solution which passes claim and billing data between your clinical systems and *The Online Claimer* enabling your practice to reduce the manual effort and streamline the claiming process by removing the need to re-enter the claim data into the system manually.

### Using the Online Claiming Interface

The *Online Claiming Interface* supports each stage of the claim submission, specifically the Claim Lifecycle which consists of:

- Verification of patient data
- Confirmation of the validity of the claim data
- Transmission of the claim data
- Retrieval of Medicare reports (if applicable)
- Resolution of claim item errors

### Who would benefit from the Online Claiming Interface?

All healthcare practices that send claims to Medicare; this would include but not be limited to:

- General Doctors
- Specialists
- Pathologists
- Optometrists
- Dentists/Orthodontists

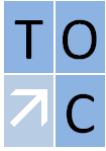

### Features and Benefits

#### **Robust**

- Improved visibility of the claims.
- Improved traceability of claim history.
- Data transmitted with a high level of security.

#### **Time Saving**

- Significantly reduce staff time required to prepare, submit, and store paperwork
- Claims can be transmitted to Medicare in real time rather than posted.

---

***Improved Revenue Stream***

- Faster turnaround time on the entire claiming process.
- Claims processed within two to three days.
- Any claims problems can be rectified and re-submitted to Medicare swiftly by the claiming staff.
